Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. The last line of claim 1 recites "the extracted beam". There is insufficient antecedent basis for this limitation in the claim.
4. Claim 3 recites the limitation "the combined beam". There is insufficient antecedent basis for this limitation in the claim.
5. Claim 4 recites "alternative" and it is unclear in what aspect the second optical arrangement is an alternative.
6. Claim 12 recites "said frequency shifted radiation". There is insufficient antecedent basis for this limitation in the claim. Also "associated local oscillator beam," "the transmit path" and "the receive path" lack antecedent basis.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Art Unit: 2886

8. Claim 12, **as understood by the examiner**, is rejected under 35 U.S.C. 102(a) as being anticipated by Holton (US 6,621,561).

Holton shows a doppler sensor comprising:

extracting radiation (106) from the transmit path of the device,

introducing a frequency difference (134, 140, 142) between the extracted radiation and associated local oscillator beam, and

inputting (128) said frequency shifted radiation into the receive path (140) of the device.

Allowable Subject Matter

9. Claims 1-11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Hwa S. Lee whose telephone number is 571-272-2419. The examiner can normally be reached on Tue-Fr.
